

# **Coalition of Local Chambers**

## **The Voice for over 13,000 Kansas Businesses**

The coalition of local chambers of commerce listed below, representing more than 13,000 Kansas businesses, small and large, are aware of the difficult choices state government has been faced with in recent years with a challenging economy and dwindling revenues.

Our Kansas local chambers, governed by local businesses, believe it is critical to emphasize how statewide decisions impact efforts to attract and retain jobs in cities across our state. State Government is responsible to educate our children, provide certain levels of infrastructure for travel of our citizens as well as the movement of goods and services, and additionally to care for a percent of our population which do not have the ability to care for themselves.

We have joined together to present these position statements to advocate for policies which we believe create a strong economy, a qualified and nimble workforce, a sustainable infrastructure and ultimately a quality of life which retains our best and brightest and attracts businesses and talent to Kansas. Our members stand ready to work with you to bring our collective vision to reality.

### **TRANSPORTATION AND INFRASTRUCTURE**

The Coalition recognizes the importance of a quality, well-maintained comprehensive highway system and is concerned with delays in previously approved projects as well as regularly scheduled maintenance of highways and bridges throughout the state. Thus, the Coalition supports the full funding and implementation of T-Works and opposes further diversion of funds from the Kansas Highway Fund.
